

## Direxion Daily BRKB Bull 2X ETF

### Overview

The [Direxion Daily BRKB Bull 2X ETF](#) seeks daily investment results, before fees and expenses, of 200% of the performance of the Class B common shares of Berkshire Hathaway Inc. (NYSE: BRK.B).

**Investing in the funds involves a high degree of risk.** Unlike traditional ETFs, or even other leveraged and/or inverse ETFs, these leveraged and/or inverse single-stock ETFs track the price of a single stock rather than an index, eliminating the benefits of diversification. Leveraged and inverse ETFs pursue daily leveraged investment objectives, which means they are riskier than alternatives which do not use leverage. They seek daily goals and should not be expected to track the underlying stock's performance over periods longer than one day. They are not suitable for all investors and should be utilized only by investors who understand leverage risk and who actively manage their investments. The Funds will lose money if the underlying stock's performance is flat, and it is possible that the Bull Fund will lose money even if the underlying stock's performance increases, and the Bear Fund will lose money even if the underlying stock's performance decreases, over a period longer than a single day.

**Investing in the Funds is not equivalent to investing directly in BRK.B.**

### Single Stock Exposure

### Fund Facts

#### Direxion Daily BRKB Bull 2X ETF

Fund Symbol	BRKU
Intraday Indicative Value	BRKU.IV
CUSIP	25461A452
Daily Target	200%
Gross Expense Ratio	1.04%
Net Expense Ratio*	1.02%
Inception Date	12/11/2024

\*The Net Expense Ratio includes management fees, other operating expenses and Acquired Fund Fees and Expenses. If Acquired Fund Fees and Expenses were excluded, the Net Expense Ratio would be 0.95%. The Funds' adviser, Rafferty Asset Management, LLC ("Rafferty"), has entered into an Operating Expense Limitation Agreement with each Fund. Under the Operating Expense Limitation Agreement, Rafferty has contractually agreed to waive all or a portion of its management fee and/or reimburse a Fund for Other Expenses through September 1, 2027, to the extent that a Fund's Total Annual Fund Operating Expenses exceed 0.95% of the Fund's average daily net assets (excluding, as applicable, among other expenses, taxes, swap financing and related costs, acquired fund fees and expenses, dividends or interest on short positions, other interest expenses, brokerage commissions and extraordinary expenses). If these expenses were included, the expense ratio would be higher.

### Important Information Regarding BRKU

The Direxion Daily BRKB Bull 2X ETF (BRKU) seeks 200% daily leveraged investment results and thus will have an increase of volatility relative to the underlying BRK.B performance itself. Longer holding periods, higher volatility of BRK.B and leverage increase the impact of compounding on an investor's returns. During periods of higher BRK.B volatility, the volatility of BRK.B may affect the fund's performance.

### Performance (As of 03/31/2026)

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the funds' website at [direxion.com](http://direxion.com). Short-term performance, in particular, is not a good indication of a fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

**Direxion Shares Risks** – An investment in a Fund involves risk, including the possible loss of principal. Each Fund is non-diversified and includes risks associated with a Fund concentrating its investments in a particular security, industry, sector, or geographic region which can result in increased volatility. A Fund's investments in derivatives such as futures contracts and swaps may pose risks in addition to, and greater than, those associated with directly investing in securities or other investments, including imperfect correlations with underlying investments or the Fund's other portfolio holdings, higher price volatility and lack of availability. As a result, the value of an investment in a Fund may change quickly and without warning.

**Leverage Risk** – The Bull Fund obtains investment exposure in excess of its net assets by utilizing leverage and may lose more money in market conditions that are adverse to its investment objective than a fund that does not utilize leverage. A total loss may occur in a single day. Leverage will also have the effect of magnifying any differences in the Fund's correlation with BRK.B and may increase the volatility of the Bull Fund.

**Daily Correlation Risk** – A number of factors may affect the Bull Fund's ability to achieve a high degree of correlation with BRK.B and therefore achieve its daily leveraged investment objective. The Bull Fund's exposure to BRK.B is impacted by BRK.B's movement. Because of this, it is unlikely that the Bull Fund will be perfectly exposed to BRK.B at the end of each day. The possibility of the Bull Fund being materially over- or under-exposed to BRK.B increases on days when BRK.B is volatile near the close of the trading day.

**Berkshire Hathaway Inc.** – BRK.B faces risks associated with the risks associated with companies in the financial services sector and the insurance industry. Additionally, Berkshire Hathaway Inc. faces risks associated with: terrorism impacting its operating businesses; cybersecurity events; geopolitical events that cause losses to its business and the value of securities it owns.

**Financials Sector Risk** — Performance of companies in the financials sector may be materially impacted by many factors, including but not limited to, government regulations, economic conditions, credit rating downgrades, changes in interest rates and decreased liquidity in credit markets.

Additional risks of the Fund include Effects of Compounding and Market Volatility Risk, Market Risk, Counterparty Risk, Rebalancing Risk, Intra-Day Investment Risk, Other Investment Companies (including ETFs) Risk, Cash Transaction Risk, and Passive Investment and Index Performance Risk. Please see the summary and full prospectuses for a more complete description of these and other risks of the Fund.
