

Direxion Daily Cloud Computing Bull 2X Shares

Overview

The [Direxion Daily Cloud Computing Bull 2X Shares](#) seeks daily investment results, before fees and expenses, of 200% of the performance of the Indxx USA Cloud Computing Index. **There is no guarantee the fund will achieve its stated investment objective.**

This leveraged ETF seeks a return that is 200% of the return of its benchmark index **for a single day. The fund should not be expected to provide two times the return of the benchmark's cumulative return for periods greater than a day.**

Target Index

The Indxx USA Cloud Computing Index (IUCLOUN) is provided by Indxx, LLC. and includes domestic companies that deliver cloud computing infrastructure, platforms, or services. The companies included in the Index are involved in the delivery of computing services – servers, storage, databases, networking, software, analytics, and more, over the internet, which is often referred to as the "Cloud." The Index Provider has defined cloud computing to include three themes: Infrastructure as a service; Platform as a service; and Software as a service. **One cannot invest directly in an Index.**

Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment.

Fund Facts

Fund Symbol	CLDL
Intraday Indicative Value	CLDL.IV
Bloomberg Index Symbol	IUCLOUN
CUSIP	25460G625
Daily Target	200%
Gross Expense Ratio	1.27%
Net Expense Ratio*	0.99%
Inception Date	1/8/2021

**The Net Expense Ratio includes management fees, other operating expenses and Acquired Fund Fees and Expenses. If Acquired Fund Fees and Expenses were excluded, the Net Expense Ratio would be 0.95%. The Fund's adviser, Rafferty Asset Management, LLC ("Rafferty") has entered into an Operating Expense Limitation Agreement with the Fund. Under the Operating Expense Limitation Agreement, Rafferty has contractually agreed to waive all or a portion of its management fee and/or reimburse the Fund for Other Expenses through September 1, 2024, to the extent that the Fund's Total Annual Fund Operating Expenses exceed 0.95% of the Fund's average daily net assets (excluding, as applicable, among other expenses, taxes, swap financing and related costs, acquired fund fees and expenses, dividends or interest on short positions, other interest expenses, brokerage commissions and extraordinary expenses). If these expenses were included, the expense ratio would be higher.*

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the fund's website at direxion.com.

Short-term performance, in particular, is not a good indication of a fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

Direxion Shares Risks — An investment in the Fund involves risk, including the possible loss of principal. The Fund is non-diversified and includes risks associated with the Fund's concentrating its investments in a particular industry, sector, or geography which can increase volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause prices to fluctuate over time. Risks of the Fund include Effects of Compounding and Market Volatility Risk, Leverage Risk, Market Risk, Counterparty Risk, Rebalancing Risk, Intra-Day Investment Risk, Daily Index Correlation Risk, Other Investment Companies (including ETFs) Risk, Cash Transaction Risk, Tax Risk and risks specific to the Information Technology Sector and Cloud Computing Industry. The market prices of internet securities tend to exhibit a greater degree of market risk and sharp price fluctuations than other types of securities as these securities may fall in and out of favor with investors rapidly, which may cause sudden selling and dramatically lower market prices. Please see the summary and full prospectuses for a more complete description of these and other risks of the Fund.
