## Direxion Monthly S&P 500 Bull 1.75X Fund

### Overview

The **Direxion Monthly S&P 500® Bull 1.75X Fund** seeks monthly investment results, before fees and expenses, of 175%, of the calendar month performance of the S&P 500® Index. ***There is no guarantee that the fund will achieve its stated investment objective.***

Direxion's Leveraged Index-based Funds seek to provide monthly returns which are a multiple of the returns of the relevant benchmark. In practice, this means that Leveraged Index-based Funds react to gains by increasing market exposure and react to losses by decreasing market exposure.

### Target Index

Standard & Poor's® selects the stocks comprising the S&P 500® Index (SPXT) on viability of the company and the public float, liquidity and price of a company's shares outstanding. The Index is a float-adjusted, market capitalization-weighted index. **One cannot invest directly in an index.**

*The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the funds website at [direxion.com](http://direxion.com). Short-term performance, in particular, is not a good indication of the fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.*

Investing in the Direxion Funds may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Funds are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking monthly leveraged, or monthly inverse leveraged, investment results and intend to actively monitor and manage their investment. The Direxion Funds are not designed to track their respective underlying indices over a period of time longer than one calendar month.

**Direxion Funds Risks** – An investment in the Fund involves risk, including the possible loss of principal. The Fund is non-diversified and includes risks associated with concentration which results from the Fund's investment in a particular industry, sector, or geographic region, which can result in increased volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause their price to fluctuate over time. The Fund does not attempt to, and should not be expected to, provide returns which are 1.75 times the return of its underlying index for periods other than a full calendar month. Risks of the Fund include Effects of Compounding and Market Volatility Risk, Leverage Risk, Derivatives Risk, Passive Investment and Index Performance Risk, Market Risk, Counterparty Risk, Rebalancing Risk, Intra-Calendar Month Investment Risk, Monthly Index Correlation Risk and risks specific to the securities that comprise the S&P 500® Index. Please see the summary and full prospectus for a more complete description of these and other risks of the Fund.
