Direxion Closing Four ETFs

Closures Due to Limited Interest Since Launch

NEW YORK—November 19, 2021— Due to the their inability to attract sufficient investment assets, the Board of Trustees of the Direxion Shares ETF Trust has decided to liquidate and close four ETFs (each, a “Fund” and collectively, the “Funds”), based on the recommendation of the funds’ adviser, Rafferty Asset Management, LLC. As a result, the Board concluded that liquidating and closing the Funds would be in the best interest of the Funds and their shareholders. The Funds closing are as follows:

Fund	Ticker	CUSIP
Direxion Dynamic Hedge ETF	DYHG	25460G740
Direxion Flight to Safety Strategy ETF	FLYT	25460G203
Direxion Daily Latin America Bull 2X Shares	LBJ	25460E273
Direxion Daily Cloud Computing Bear 2X Shares	CLDS	25460G633

The Funds will cease trading on the NYSE Arca, Inc. (“NYSE”) and will be closed to purchase by investors as of the close of regular trading on the NYSE on December 13, 2021 (the “Closing Date”). The Funds will not accept purchase orders after the Closing Date.

Shareholders may sell their holdings in a Fund prior to the Closing Date and customary brokerage charges may apply to these transactions. However, from December 13, 2021 through December 20, 2021 (the “Liquidation Date”) shareholders may only be able to sell their shares to certain broker-dealers and there is no assurance that there will be a market for a Fund’s shares during this time period. Between the Closing Date and the Liquidation Date, each Fund will be in the process of closing down and liquidating its portfolio. This process will result in a Fund increasing its cash holdings and, as a consequence, not tracking its underlying index, which is inconsistent with each Fund’s investment objective and strategy.

On or about the Liquidation Date, each Fund will liquidate its assets and distribute cash pro rata to all shareholders who have not previously redeemed or sold their shares. These distributions are taxable events. In addition, these payments to shareholders may include accrued capital gains and dividends. As calculated on the Liquidation Date, each Fund’s net asset value will reflect the costs of closing the Fund. Once the distributions are complete, the Funds will terminate.

Direxion Shares Risks - An investment in the ETFs involves risk, including the possible loss of principal. The ETFs are non-diversified and include risks associated with concentration that results from an ETF's investments in a particular industry or sector which can increase volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause their price to fluctuate over time. The ETFs do not attempt to, and should not be expected to, provide returns which are a multiple of the return of their respective index for periods other than a single day. For other risks including leverage, correlation, daily compounding, market volatility and risks specific to an industry or sector, please read the prospectus.
