

Direxion Daily LMT Bull 2X ETF

Overview

The [Direxion Daily LMT Bull 2X ETF](#) seeks daily investment results, before fees and expenses, of 200% of the performance of the common shares of Lockheed Martin Corporation (NYSE: LMT).

Investing in the funds involves a high degree of risk. Unlike traditional ETFs, or even other leveraged and/or inverse ETFs, these leveraged and/or inverse single-stock ETFs track the price of a single stock rather than an index, eliminating the benefits of diversification. Leveraged and inverse ETFs pursue daily leveraged investment objectives, which means they are riskier than alternatives which do not use leverage. They seek daily goals and should not be expected to track the underlying stock's performance over periods longer than one day. They are not suitable for all investors and should be utilized only by investors who understand leverage risk and who actively manage their investments. The Funds will lose money if the underlying stock's performance is flat, and it is possible that the Bull Fund will lose money even if the underlying stock's performance increases, and the Bear Fund will lose money even if the underlying stock's performance decreases, over a period longer than a single day. **Investing in the Funds is not equivalent to investing directly in LMT.**

Single Stock Exposure

Lockheed Martin Corporation is an international security and aerospace company who primarily serves agencies of the U.S. Government. Lockheed Martin Corporation is global security and aerospace company principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services. LMT is registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Information provided to or filed with the Securities and Exchange Commission by The Lockheed Martin Corporation pursuant to the Exchange Act can be located by reference to the Securities and Exchange Commission file number 001-11437 through the Securities and Exchange Commission's website at www.sec.gov. In addition, information regarding The Lockheed Martin Corporation may be obtained from other sources including, but not limited to, press releases, newspaper articles and other publicly disseminated documents.

Fund Facts

Direxion Daily LMT Bull 2X ETF

Fund Symbol	LMTL
Intraday Indicative Value	LMTL.IV
CUSIP	25461H887
Daily Target	200%
Gross Expense Ratio	2.47%
Net Expense Ratio*	1.07%
Inception Date	08/06/2025

**The Net Expense Ratio includes management fees, other operating expenses and Acquired Fund Fees and Expenses. If Acquired Fund Fees and Expenses were excluded, the Net Expense Ratio would be 0.95%. The Funds' adviser, Rafferty Asset Management, LLC ("Rafferty"), has entered into an Operating Expense Limitation Agreement with each Fund. Under the Operating Expense Limitation Agreement, Rafferty has contractually agreed to waive all or a portion of its management fee and/or reimburse a Fund for Other Expenses through September 1, 2027, to the extent that a Fund's Total Annual Fund Operating Expenses exceed 0.95% of the Fund's average daily net assets (excluding, as applicable, among other expenses, taxes, swap financing and related costs, acquired fund fees and expenses, dividends or interest on short positions, other interest expenses, brokerage commissions and extraordinary expenses). If these expenses were included, the expense ratio would be higher.*

Important Information Regarding LMTL

The Direxion Daily LMT Bull 2X ETF (LMTL) seeks 200% daily leveraged investment results and thus will have an increase of volatility relative to the underlying LMT performance itself. Longer holding periods, higher volatility of LMT and leverage increase the impact of compounding on an investor's returns. During periods of higher LMT volatility, the volatility of LMT may affect the fund's performance.

Performance (As of 03/31/2026)

		1M %	3M %	YTD %	1Y %	3Y %	5Y %	10Y %	S/I %	Inception Date
LMTL	NAV	-16.01	50.07	50.07	-	-	-	-	86.15	08/06/25
	Market Close	-16.06	50.13	50.13	-	-	-	-	86.33	

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the funds' website at direxion.com. Short-term performance, in particular, is not a good indication of a fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.

Important Information

An investor should carefully consider a Fund's investment objective, risks, charges, and expenses before investing. A Fund's prospectus and summary prospectus contain this and other information about the Direxion Shares. To obtain a Fund's prospectus and summary prospectus call 866-476-7523 or visit our website at direxion.com. A Fund's prospectus and summary prospectus should be read carefully before investing.

CUSIP Identifiers have been provided by CUSIP Global Services, managed on behalf of the American Bankers Association by Standard and Poor's Financial Services, LLC, and are not for use or dissemination in any manner that would serve as a substitute for a CUSIP service. The CUSIP Database, ©2011 American Bankers Association. "CUSIP" is a registered trademark of the American Bankers Association.

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

Direxion Shares Risks – An investment in a Fund involves risk, including the possible loss of principal. Each Fund is non-diversified and includes risks associated with a Fund concentrating its investments in a particular security, industry, sector, or geographic region which can result in increased volatility. A Fund's investments in derivatives such as futures contracts and swaps may pose risks in addition to, and greater than, those associated with directly investing in securities or other investments, including imperfect correlations with underlying investments or the Fund's other portfolio holdings, higher price volatility and lack of availability. As a result, the value of an investment in a Fund may change quickly and without warning.

Leverage Risk – The Bull Fund obtains investment exposure in excess of its net assets by utilizing leverage and may lose more money in market conditions that are adverse to its investment objective than a fund that does not utilize leverage. A total loss may occur in a single day. Leverage will also have the effect of magnifying any differences in the Fund's correlation with LMT and may increase the volatility of the Bull Fund.

Daily Correlation Risk - A number of factors may affect the Bull Fund's ability to achieve a high degree of correlation with LMT and therefore achieve its daily leveraged investment objective. The Bull Fund's exposure to LMT is impacted by LMT's movement. Because of this, it is unlikely that the Bull Fund will be perfectly exposed to LMT at the end of each day. The possibility of the Bull Fund being materially over- or under-exposed to LMT increases on days when LMT is volatile near the close of the trading day.

Lockheed Martin Corporation Investing Risk - LMT faces risks associated with: dependance on U.S. Government contracts; the F-35 program which is approximately 26% of the company's net sales is reliant on continued government funding; extensive procurement laws and regulations; variability in current contracts and programs as well as performance and ability to control costs; more audits due to government contracts; heavy dependance on suppliers and subcontractors; reliant on development of new technology; public health events; international sales pose different economic, regulatory and competitive risks; among other risks.

Industrials Sector Risk — Stock prices of issuers in the industrials sector are affected by supply and demand both for their specific product or service and for industrials sector products in general.

Aerospace and Defense Industry Risk — The aerospace and defense industry can be significantly affected by government regulation and spending policies because companies involved in this industry rely, to a significant extent, on government demand for their products and services.

Additional risks of the Fund include Effects of Compounding and Market Volatility Risk, Market Risk, Counterparty Risk, Rebalancing Risk, Intra-Day Investment Risk, Other Investment Companies (including ETFs) Risk, Cash Transaction Risk, and Passive Investment and Index Performance Risk. Please see the summary and full prospectuses for a more complete description of these and other risks of the Fund.
