## Leveraged & Inverse ETFs

### Direxion Daily Concentrated Qs Bull 2X and Bear 1X Shares

#### Overview

The Direxion [Daily Concentrated Qs Bull 2X and Bear 1X Shares](#) seek daily investment results, before fees and expenses, of 200%, or 100% of the inverse (or opposite), of the performance of the Indxx Front of the Q Index. **There is no guarantee the funds will achieve their stated investment objectives.**

These leveraged or inverse ETFs seek a return that is 200% or -100% the return of its benchmark index **for a single day. The funds should not be expected to provide two times or negative one times the return of the benchmark's cumulative return for periods greater than a day.**

#### Target Index

The Indxx Front of the Q Index (IFOTQ) is provided by Indxx and is designed to track the performance of the seven largest NASDAQ listed companies. **One cannot invest directly in an index.**

*Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment.*

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.
