Leveraged & Inverse ETFs

Direxion Daily 7-10 Year Treasury Bull and Bear 3X Shares

Overview

The [Direxion Daily 7-10 Year Treasury Bull & Bear 3X Shares](#) seek daily investment results, before fees and expenses, of 300%, or 300% of the inverse (or opposite), of the performance of the ICE U.S. Treasury 7-10 Year Bond Index. **There is no guarantee the funds will achieve their stated investment objectives.**

These leveraged ETFs seek a return that is 300% or -300% of the return of their benchmark index **for a single day**. **The funds should not be expected to provide three times or negative three times the return of the benchmark's cumulative return for periods greater than a day.**

Target Index

The ICE U.S. Treasury 7-10 Year Bond Index (IDCOT7) is a market value weighted index that includes publicly issued U.S. Treasury securities that have a remaining maturity of greater than seven years and less than or equal to ten years. Eligible securities must be fixed rate, denominated in U.S. dollars, and have \$300 million or more of outstanding face value, excluding amounts held by the Federal Reserve. Securities excluded from the Index are zero-coupon STRIPS, inflation linked securities, floating rate notes, cash management and Treasury bills, and any government agency debt issued with or without a government guarantee. **One cannot invest directly in an index.**

Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment.

Fund Facts

	Direxion Daily 7-10 Year Treasury Bull 3X Shares	Direxion Daily 7-10 Year Treasury Bear 3X Shares
Fund Symbol	TYD	TYO
Intraday Indicative Value	TYD.IV	TYO.IV
Bloomberg Index Symbol	IDCOT7	IDCOT7
CUSIP	25459W565	25459W557
Daily Target	300%	-300%
Gross Expense Ratio	1.06%	1.08%
Net Expense Ratio*	1.06%	1.00%
Inception Date	4/16/2009	4/16/2009

*The Net Expense Ratio includes management fees, other operating expenses and Acquired Fund Fees and Expenses. If Acquired Fund Fees and Expenses were excluded, the Net Expense Ratio would be 0.95%. The Funds' adviser, Rafferty Asset Management, LLC ("Rafferty"), has entered into an Operating Expense Limitation Agreement with each Fund. Under the Operating Expense Limitation Agreement, Rafferty has contractually agreed to waive all or a portion of its management fee and/or reimburse a Fund for Other Expenses through September 1, 2026, to the extent that a Fund's Total Annual Fund Operating Expenses exceed 0.95% of the Fund's average daily net assets (excluding, as applicable, among other expenses, taxes, swap financing and related costs, acquired fund fees and expenses, dividends or interest on short positions, other interest expenses, brokerage commissions and extraordinary expenses). If these expenses were included, the expense ratio would be higher.

Index Statistics

Duration	7.13
Weighted Average Maturity	8.55
Weighted Average Coupon	3.86
30 Day Volatility	6.09

Duration is a measure of the sensitivity of the price (the value of principal) of a fixed-income investment to a change in interest rates. Duration is expressed as a number of years. **Weighted average maturity** of the time until all maturities on treasuries in the index, expressed as a number of years. The higher the weighted average to maturity, the longer the bonds have in the index until maturity. **Weighted average coupon** of the index is arrived at by weighting the coupon of each bond by its relative size in the portfolio. **Volatility** is a measurement of risk based on daily volatility of price over the last 30 days of the period calculated using standard deviation.

Index Credit Ratings %

Aa1	100
-----	-----

The **credit ratings** are published rankings based on Moody's financial analyses as it relates to the bond issuer's ability to meet debt obligations. The highest rating is Aaa, and the lowest is C.

Index Bond Maturities %

9-10	32.03
7-9	61.38

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the funds' website at [direxion.com](#). Short-term performance, in particular, is not a good indication of a fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.

Important Information

An investor should carefully consider a Fund's investment objective, risks, charges, and expenses before investing. A Fund's prospectus and summary prospectus contain this and other information about the Direxion Shares. To obtain a Fund's prospectus and summary prospectus call 866-476-7523 or visit our website at direxion.com. A Fund's prospectus and summary prospectus should be read carefully before investing.

CUSIP Identifiers have been provided by CUSIP Global Services, managed on behalf of the American Bankers Association by Standard and Poor's Financial Services, LLC, and are not for use or dissemination in any manner that would serve as a substitute for a CUSIP service. The CUSIP Database, ©2011 American Bankers Association. "CUSIP" is a registered trademark of the American Bankers Association.

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

Neither Rafferty nor the Direxion Daily 7-10 Year Treasury Bull 3X Shares and the Direxion Daily 7-10 Year Treasury Bear 3X Shares (the "Financial Products") is sponsored, endorsed, sold or promoted by Interactive Data Pricing and Reference Data, LLC or its affiliates ("Vendor"). Vendor makes no representation or warranty regarding the advisability of investing in securities generally, in the Financial Products particularly, or the ability of the ICE U.S. Treasury 7-10 Year Bond Index to track general financial market performance. VENDOR MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO THE ICE INDEX OR ANY DATA INCLUDED THEREIN. IN NO EVENT SHALL VENDOR HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

Direxion Shares Risks – An investment in a Fund involves risk, including the possible loss of principal. A Fund is non-diversified and includes risks associated with the Fund's concentrating its investments in a particular industry, sector, or geography which can increase volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause prices to fluctuate over time.

Leverage Risk – Each Fund obtains investment exposure in excess of its net assets by utilizing leverage and may lose more money in market conditions that are adverse to its investment objective than a fund that does not utilize leverage. A total loss may occur in a single day. Leverage will also have the effect of magnifying any differences in the Fund's correlation or inverse correlation with the Index and may increase the volatility of the Fund.

Daily Index Correlation Risk – A number of factors may affect the Bull Fund's ability to achieve a high degree of correlation with the Index and therefore achieve its daily leveraged investment objective. The Bull Fund's exposure to the Index is impacted by the Index's movement. Because of this, it is unlikely that the Bull Fund will be perfectly exposed to the Index at the end of each day. The possibility of the Bull Fund being materially over- or under-exposed to the Index increases on days when the Index is volatile near the close of the trading day.

Daily Inverse Index Correlation Risk – A number of factors may affect the Bear Fund's ability to achieve a high degree of inverse correlation with the Index and therefore achieve its daily inverse leveraged investment objective. The Bear Fund's exposure to the Index is impacted by the Index's movement. Because of this, it is unlikely that the Bear Fund will be perfectly exposed to the Index at the end of each day. The possibility of the Bear Fund being materially over- or under-exposed to the Index increases on days when the Index is volatile near the close of the trading day.

U.S. Government Securities Risk – A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity. The market prices for such securities are not guaranteed and will fluctuate.

Additional risks of each Fund include Effects of Compounding and Market Volatility Risk, Market Risk, Counterparty Risk, Rebalancing Risk, Intra-Day Investment Risk, Other Investment Companies (including ETFs Risk), Cash Transaction Risk, Passive Investment and Index Performance Risk and for the Direxion Daily 7-10 Year Treasury Bear 3X Shares, Shorting or Inverse Risk. Please see the summary and full prospectuses for a more complete description of these and other risks of a Fund.
