Daily Dow Jones Internet Bull and Bear 3X Shares

Overview

The [Daily Dow Jones Internet Bull and Bear 3X Shares](#) seek daily investment results, before fees and expenses, of 300%, or 300% of the inverse (or opposite), of the performance of the Dow Jones Internet Composite Index. **There is no guarantee the funds will meet their stated investment objective.**

These leveraged ETFs seek a return that is 300% or -300% the return of its benchmark index **for a single day. The funds should not be expected to provide two times or negative two times the return of the benchmark's cumulative return for periods greater than a day.**

Target Index

The Dow Jones Internet Composite Index (DJINETT) is provided by S&P Dow Jones Indices and includes companies that generate at least 50% of their annual sales/revenue from the internet as determined by the Index Provider. Additionally, each stock must have a minimum of three months' trading history and a three month average market capitalization of at least \$100 million. The Index consists of 40 stocks that are included in two different sectors, internet commerce and internet services. **One cannot directly invest in an index.**

Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the funds' website at direxion.com.

Short-term performance, in particular, is not a good indication of a fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

Direxion Shares Risks – An investment in each Fund involves risk, including the possible loss of principal. Each Fund is non-diversified and include risks associated with the Funds' concentrating their investments in a particular industry, sector, or geography which can increase volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause their price to fluctuate over time. Risks of each Fund include Effects of Compounding and Market Volatility Risk, Leverage Risk, Market Risk, Market Disruption Risk, Aggressive Investment Techniques Risk, Counterparty Risk, Intra-Day Investment Risk, and risks specific to the Information Technology Sector and Internet Company Industry. The market prices of internet securities tend to exhibit a greater degree of market risk and sharp price fluctuations than other types of securities as these securities may fall in and out of favor with investors rapidly, which may cause sudden selling and dramatically lower market prices. Additional risks include, for the Direxion Daily Dow Jones Internet Bull 3X Shares, Daily Index Correlation/Tracking Risk and Other Investment Companies (including ETFs) Risk, and for the Direxion Daily Dow Jones Internet Bear 3X Shares, risks related to Shorting and Cash Transactions, and Daily Inverse Index Correlation/Tracking Risk. Please see the summary and full prospectuses for a more complete description of these and other risks of each Fund.
